

FCC Chairman Ajit Pai,

I specifically support strong Net Neutrality backed by Title II oversight of ISPs. I do not believe that the commission document 17-108, captioned "Restoring Internet Freedom" will lead to a free and open internet. Instead, I believe it will do more harm by allowing internet providers to slow down internet speeds of individuals, groups, and companies in favor of larger corporations/groups/individuals who can pay to have their content pushed to the front line. I believe this is a form of censorship that shouldn't go into effect.

I love the internet, and I strongly believe that Title II must stay in play. I cannot stress enough that the internet must stay free and open, uninhibited by anyone or anything that will alter, deteriorate, or stop the vast amount of knowledge that can be accessed through the world wide web.

Please, withdraw this bill stop the attacks on Title II and the free and open internet.

Signed,
Audrey Magwili
